Summary

Aspiring Software Engineer with a passion for crafting intuitive and responsive frontend experiences using React, JavaScript, HTML, and CSS. Proficient in building modular, scalable UI components and integrating REST APIs, with hands-on experience in projects like an Online Voting System and Travel Buddy. Gained practical frontend expertise during a Full Stack internship at Bairuha Tech, leveraging React and MERN Stack. Adept at collaborating with cross-functional teams, writing clean code, and optimizing for performance and cross-browser compatibility. Eager to contribute creativity, problem-solving, and a can-do attitude to a dynamic frontend development role.

Experience

Bairuha Tech, Kozhikode, Kerala

Jan 2025 – Apr 2025

Full Stack Developer Intern (React and MERN Stack)

- Developed responsive and interactive UI components using React, JavaScript, and CSS, enhancing user experience for client-facing web applications.
- Collaborated with designers and backend engineers to implement RESTful API integrations, ensuring seamless data flow and functionality.
- Participated in code reviews, adhering to best practices for modular, maintainable code and improving application performance.
- Contributed to agile workflows, including daily stand-ups and knowledge transfer sessions, to align with team objectives and project timelines.

Education

APJ Abdul Kalam Technological University (AWH Engineering College), Kozhikode, Kerala

Master of Computer Applications (MCA)

2023 – 2025

University of Calicut (IHRD Mukkam), Kozhikode, Kerala

B.Sc. in Computer Science

2020 – 2023

Projects

Online Voting System

2024

- Built a secure e-voting platform with a responsive frontend using JavaScript, HTML, and CSS, featuring user authentication and real-time vote tracking.

- Designed modular UI components for admin dashboards, ensuring cross-browser compatibility and adherence to Web Vitals.
- Implemented REST APIs with Django, optimizing MySQL queries to support over 1,000 concurrent users efficiently.
- *Technologies:* JavaScript, HTML, CSS, Django, MySQL

Travel Buddy

2024

- Developed a web application to connect solo travelers, featuring a responsive UI with dynamic trip planning and request management.
- Crafted reusable frontend components using JavaScript, HTML, and CSS, ensuring seamless user experiences across devices.
- Integrated RESTful APIs with a MySQL backend, designing an efficient schema for trip matching and issue reporting.
- *Technologies:* JavaScript, HTML, CSS, Django, MySQL

Skills

Technical Skills

- *Programming Languages:* JavaScript (ES6+), TypeScript (learning), Python, PHP
- *Web Technologies:* React, HTML, CSS, Django, REST APIs
- *Frameworks:* Familiar with Next.js (self-learning), Gatsby.js (exploring)
- *Databases:* MySQL, PostgreSQL
- *Tools:* Git, VS Code, Postman
- *Concepts:* Responsive Design, Web Vitals, MVC Architecture, Component-Driven Development

Soft Skills

- Problem-Solving, Team Collaboration, Communication, Time Management
